

ARTIZAN

What Guides Us

OUR VALUES

Empowering Independence and Opportunity

We believe in the potential in every individual. We're dedicated to empowering people to lead fulfilling lives, fostering independence, and creating equitable opportunities to thrive. We believe that joy, fun and community are essential ingredients for a life well-lived.

Championing Inclusivity and Respect

We're committed to a world where everyone belongs. We champion inclusivity, celebrate diversity, and treat every person with unwavering respect, ensuring their voices are heard and valued through active listening.

Compassionate Collaboration and Co-production

Our work is rooted in kindness and compassion. We embrace co-production, working hand-in-hand with people with disabilities to design and develop our projects.

Integrity and Equity

We offer fair pay to artisans, equitable opportunities to members; and safe, caring environments where people can learn, adapt, and feel secure. We challenge stigma and raise awareness to build a more just and compassionate world.

Promoting Visibility & Acceptance

We strive to increase the visibility of people with disabilities, celebrating their contributions and challenging societal misconceptions. We cultivate an environment of unconditional acceptance, where everyone feels safe, valued, and free to be themselves.

THE VISION

A world where people with disabilities are empowered, included, and thriving; living independent, creative, and fulfilling lives through real-world opportunities, caring communities, and room to grow.

THE MISSION

Artizan International's mission is to transform the lives of people with disabilities, enabling fulfilling, independent futures through social enterprise, hospitality, and community inclusion. Rooted in compassion and integrity, we co-produce sustainable programmes that build skills, opportunity, and visibility in the UK and South America. Positively changing attitudes, championing every individual and fostering a more equitable, joyful future over the next three years.
